

Plateau series

Designed by Büro Famos, Germany

Plateau, designed by Büro Famos, is a series of coffee tables comprising just two simple wooden components: a top and a base. The top is made in solid wood and is milled to make the elegant edge frame the design. The distinctive edge also emphasises the highly skilled carpentry that is showcased throughout the series and creates a beautifully rounded design. The base is made of moulded veneer and also contains a concealed storage compartment, while the top can also serve as a tray.

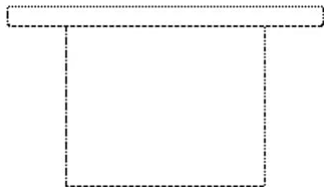

Meet the designer

It is important for us to design long lasting products. So to speak: Taking the right material for the right application and creating an appealing good shape is important to make the owner wanting to use a product for a long time. This automatically binds pleasant memories and results in a long-lasting product. We like to take into account different points of views - regarding design and technical aspects. Constant questioning is one of the greatest skills we need to do over and over again. We like to think our ideas through. From the initial idea to final product.
