

## Bronco series

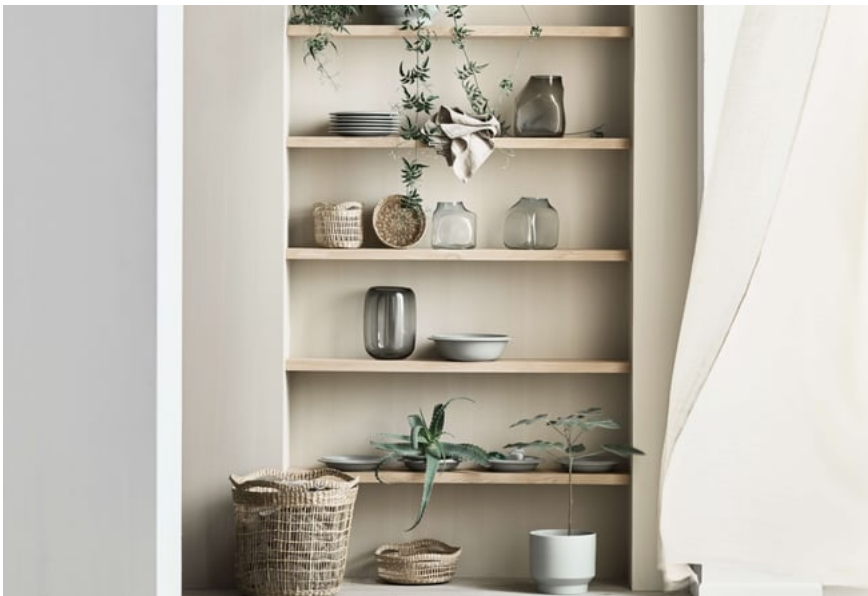

Designed by Fabio Vogel, Germany

---

In 2017, Fabio Vogel won our Bolia Design Award with the Bronco vase. A stunning design that beautifully combines traditional craftsmanship with new technology. Every single Bronco vase is completely unique as it is made of mouthblown glass – clear or matt opal white – which is blown into fabric bags to give the vase its distinctive pattern.

### Meet the designer

I work with my hands – always providing me the inspiration for new ideas. The characteristic nature of the materials, which I work with, often show me unique directions to take, allowing me to play and experiment with rather unconventional methods. I absolutely love this creative process and always aspire to bring my ideas to life and realizing them through design results.
