

Ripple series

Designed by Büro Famos, Germany

Ripple is a series of beautiful mirrors with an architectural gaze. Each mirror is inspired by the semi-circular arched windows that suited the Romanesque era. A subtle imitation with an elegant modern touch. The mirrors are designed to work as independent standalone pieces and as a creative row of reflecting mirrors. Made from elegant and durable materials, Ripple will dress your interior for years to come.

Meet the designer

It is important for us to design long lasting products. So to speak: Taking the right material for the right application and creating an appealing good shape is important to make the owner wanting to use a product for a long time. This automatically binds pleasant memories and results in a long-lasting product. We like to take into account different points of views - regarding design and technical aspects. Constant questioning is one of the greatest skills we need to do over and over again. We like to think our ideas through. From the initial idea to final product.
