

## Rigato series

Designed by Hans Thyge & Co, Denmark

---

The Rigato pouf combines traditional craftsmanship with modern design. The fabric is meticulously applied using an advanced technique that bonds the materials together, creating a quilted pattern with striking, dynamic lines. This method enhances the tactile experience, adding both texture and depth to the design. The design is FSC™-certified, and the Rigato Tray is made from oak veneer and can be flipped to serve either as a functional tabletop or a stylish serving tray. Available with or without the tray, and with a removable cover, making it a versatile and timeless addition to any living space.

### Meet the designer

Hans Thyge & Co consists of passionate designers with strong ideas and a love for beautiful design. Together we work with a combination of a strong tradition and a drive to explore the unknown and innovative parts of design. The design studio specializes in designing furniture, objects and interiors. We juggle with everything from technical projects and lifestyle concepts to branding and communication and always with a strategic, sustainable and commercial approach in mind. We have a long history of know-how and experience working with a variety of materials and production methods for clients worldwide. Working with many nationalities and different design approaches worldwide, demands an attitude of openness and collaborative skills. The mixture of different cultures and design-traditions is the hot-spot where great design comes to life. We believe in combining brain and heart, function and aesthetics, and that every design should tell a story; a product is so much more than the product itself, it is about creativity, vision, culture, company values, the past, the present and the future.
