

Piro series

Designed by Michael H. Nielsen, Denmark

Piro is designed with the aspiration to create the perfect gathering place for family and friends, using high-quality materials – solid marble, travertine, and oak veneer. Customise the table to suit your style and space by choosing between oak veneer, marble and travertine for the tabletop. The design is FSC™-certified, and the carefully selected wood highlights unique grain patterns, lending it a serene and timeless appeal. Following classic design principles, the conical column firmly rests on the floor with a substantial marble base, visually anchoring the table for stability and calm.

Meet the designer

My style is characterized by keeping the focus on the detail and "edge" that separates my designs from the crowd. One of my biggest influences is to register how much diversity there is among people and try to meet the very different needs that it creates. I've always been fascinated by the craftsmanship and the interaction between craftsman and designer. Good design is what gives meaning and value to the people who use it.
