

## Daia series

Designed by Ramos Bassols, Spain

---

The Daia series allows you to organise your living space in a thoughtful manner while being a beautiful piece of furniture itself. Designed by the Spanish studio Ramos Bassols, drawing inspiration from the elegant, horizontal American architecture of the 1950s, the design emphasises functionality, gravity, and grace, with open spaces or drawers, configuring a geometry around the two vertical legs.

### Meet the designer

We believe our products are sober-looking, formally balanced and attractive. We love to lavish attention on details as we believe that the quality of products is often judged by the quality of their details. We try to make products with clean lines, yet warm and attractive for the public. When we design, we simply want to create seductive products we'd love to have in our own homes. We have special concern for architecture and crafts which are elements that inspire us beyond the trends of the moment.
