

Vala series

Designed by Martin Lauritsen,

Vala is a luxurious piece of furniture, designed with a perfectly finished form and cleverly hidden functions like storage and cable management. Three cable outlets underneath and a spacious drawer for your laptop, keys, notebook or jewellery – depending on setting – lets you easily organize and simplify your workstation. The desk is mounted flush to the wall with a concealed suspension, creating a simple and minimalist expression with beautifully handcrafted details in oak veneer.

Meet the designer

According to industrial designer Martin Lauritsen, a designer's most important task is to develop durable products. High-quality products that last for generations. In addition to creating value and joy in our everyday lives. "Good design is like good music. Both can create positive moods and emotions through their melodies, rhythm, shape, colour, materials and more. I find the emotional qualities that aesthetics can create very interesting, and this is a driving force in my design process, just as much as creating good functional solutions."

Test and certifications

FSC™ C165134 (Forest Stewardship Council) is an international organisation that advocates for responsible management of the world's forests. FSC-labelled products contain wood materials from forests that meet strict environmental, social and economic standards, helping to protect biodiversity, ecosystems and local communities.

Tested according to the Toxic Substances Control Act - TSCA Title VI - to ensure wood-based materials do not emit excessive amounts of formaldehyde, and that they comply with permitted limits.

EN 15372 - L2: General use:Furniture. Strength, durability and safety. Requirements for non-domestic tables
