

Cosima series

Designed by kaschkasch, Germany

Cosima Nest invites you to settle in and stay awhile. With its generous depth and embracing proportions, it creates a place to curl up, stretch out, and simply sink in. Perfect for unhurried mornings, long afternoons with a book, or evenings with friends and family, Cosima Nest transforms any living room into a space of warmth, comfort and understated elegance. Sharing the beautiful design language of the iconic Cosima series, it can be tailor-made in traceable leather or with changeable covers.

Meet the designer

Our goal is to create simple and intuitive products – something that isn't over-complicated, yet is still beautiful. We always strive to design no-frill products that still possess a poetic element. We find our inspiration in almost anything. Building sites, fish markets, people, their way of behaving and so on. It isn't just about the surroundings, it's also about the interaction. For us, good design is when it feels like it's never been any different. Something that makes sense when you look at it, or something that gives you an intense feeling of pleasure.

Notice

Our down-filled sofas are designed to offer a soft, inviting and deeply comfortable seating experience. The top layer consists of down and feathers, resting on a supportive core of cold foam. This combination creates a uniquely relaxed comfort, while also meaning that the filling is naturally responsive and will shift with everyday use. Over time, seats and cushions will gently change shape, adapting to the way the sofa is lived in. To help maintain its appearance, we recommend regularly shaking and plumping the cushions to redistribute the filling. Even so, the sofa will not retain its original shape completely, but will develop a more organic expression over time. This is not a flaw, but a natural characteristic of down filling – one that gives each sofa its soft, lived-in look and distinctive comfort. Leather sofas do not have changeable cover.

Test and certifications

FSC™ C165134 (Forest Stewardship Council) is an international organisation that advocates for responsible management of the world's forests. FSC-labelled products contain wood materials from forests that meet strict environmental, social and economic standards, helping to protect biodiversity, ecosystems and local communities.

EN 16139 - L1: General use. Furniture – Strength, durability and safety – Requirements for non-domestic seating. EN 1022 - Domestic furniture - Seating - Determination of stability.

CAL TB 117-2013 – Determination of flammability resistance

Tested according to the Toxic Substances Control Act - TSCA Title VI - to ensure wood-based materials do not emit excessive amounts of formaldehyde, and that they comply with permitted limits.
